EU Type Examination Certificate

Date: 2023/01/24

n. **1011230401/OE**

Validity:
2028/01/23

Technical File: **DC-16071**

Test report: **RCT n° 4143801/E**

Functions and performance levels: The garment offers limited protection against mechanical risks arising from impact in case of a fall while participating in motorcycling activities.

This PPE item has reached the following performance:

Class C(*): This class is for specialized non-shell, impact protector ensemble garments, designed only to hold one or more impact protectors in place, either as an undergarment or as an overgarment. Class C garments are designed to provide impact protection for areas covered by the impact protector(s) only and they do not offer complete minimum abrasion protection and may not offer complete minimum impact protection.

(*) The Standard provides different classes of protection for garments including protectors/shells: AAA (highest class), AA (middle class) and A (lowest class); class B is for garments not including protectors / shells = just abrasion protection; class C is for impact protector ensemble garments.

NOTES: the protection provided also depends on the correct fit of the garment; the CE-Certified incorporated impact protectors provide strengthened protection and must be kept in their place: this falls within the responsibility of the user.

Marking: printed on different labels stitched to the garment and displaying the following information:

- **CE Marking**;
- Name/Logo, address and website of the Manufacturer;
- item designation (article name + code);
- pictogram to indicate the intended use (motorcycling) + nr. / year of the Standard of reference + indication of the class of protection achieved;
- pictogram "i in the booklet" inviting the final user to read the User Manual;
- commercial size indication;
- additional info: "Made in...", material composition, care/washing instructions, etc.
